The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. *(Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)*

BEST PRACTICE-1

1. Title of the Practice: "Student Counselling System"

2. Goal

The objectives of the practice are:

- To improve of teacher-student and Institute-Parent relationship.
- To carry out effective Counselling of students to solve their problems and build confidence in them.
- To guide students to choose right career path for job, higher studies, Entrepreneurship etc.
- To improve teaching learning process.

3. The Context:

Over a period of last one decade, the institution has noticed several students being detained/ failing in subjects, for want of academic requirements to achieve vertical progression. Further, many students have become drop outs due to lack of awareness about regulations of the programme, lack of interest in the course, personal problems, social and economical problems. Such issues necessitated the college to implement the counseling system.

- The student needs mentoring support to achieve academic excellence.
- The scheme aims at addressing conflicts in attitudes, habits and knowledge of the students towards learning practices.
- Several supporting practices are needed to achieve better coordination of lectures, tutorials and practical classes.

4. The Practice:

- Institute has an effective counseling system in which 15 to 20 students are assigned to a particular teacher who has to counsel a student in a systematic way.
- Counsellor maintains a progress report of each student. Progress report contains all personal, academic, curricular and other details of the student.
- A student who is assigned to a particular counselor in the first semester continues to receive counseling from the same counselor till the student completes the programme.
- Information about the student performance is sent to parents through SMS/by making phone calls/E mails.
- Institute regularly organizes Parents-Teachers Meet where parents can interact with counselors and course teachers about their ward's performance.

5. Evidence of Success

- Student's attendance has improved after counseling by the counselors.
- The direct communications between counselor and students have improved the teacher-student relationship.

- Academic performances of the students have improved.
- Participation in co-curricular and extra-curricular activities has been enhanced as counselor guides the student about these activities.
- Parent-institution relationship is strengthened and the parents are happy with this practice.
- Students become more disciplined.

6. Problems Encountered and Resources Required.

- Whenever there is a staff turn over, training for the new staff to the existing system and effective implementation is a real challenge. In view of this, the newly joined faculty members who are not accustomed with this program are trained by the institute to take up student counseling work.
- Parents find difficulty to get information about their wards and contact details of the counselor, when the student counselor changes because of staff turn over.
- HODs encounter with problems to allocate the counselor for year back students.
- Apart from regular workload, allocating sufficient time for one to one student interaction becomes difficult task for the faculty members.

BEST PRACTICE-2

1. Title of the Practice: "Students Financial Support System"

2. Goal

The objectives of the practice are:

- To reduce financial burden on poor and needy students who are interested in pursuing their technical education.
- To help and guide SC/ST, OBC and minority community students to get the financial benefits from Government and other agencies.
- To assist the students to get financial benefits from different sectors like defence, Local municipal councils, other state Governments, Companies etc.

3. The Context

Institute offers quality technical educational services to the society from its inception. Over the years, institute has observed that some students with good academic record and interested in pursuing higher technical education are dropping out due to their poor financial condition. They are facing difficulty in paying tuition and other fees, procuring the basic requirements such as hostel facility, books, calculators, Laptops etc. To help such students and enable them to continue their studies, the institution has implemented this practice in order to reduce the dropout of the students due to financial problems.

4. The Practice

Scholarship Scheme:

The institute has established a separate section for the scholarship. Two office staff are entrusted with the work of guiding and helping students to secure various types of scholarship, under the supervision and guidance of the principal.

The Scholarship Section identifies the different sources form where the students can get the financial benefits and same will be brought to the notice of the concerned students through circulars and SMS.

The scholarship section ensures that all eligible students for a particular

scholarship have filled and submitted their applications online or to the scholarship section.

The list of students who have applied for the particular scholarship is consolidated and sent to the respective agencies by the principal.

The follow up action is taken by the scholarship section until students get his/her scholarship. Due to any problem, if students do not get the scholarship, the problems are resolved by the scholarship section.

In majority of the cases the scholarship amount is directly transferred to the beneficiaries account. However in some cases it is disbursed through the college.

Freeship Scheme:

5% of the students are admitted under Super Numerary Quota which is Zero fee category.

For other students who are good at academic, not eligible for any scholarship and financially week are given fee concession by the management for their benefits.

5. Evidence of Success

- Scholarships to a tune of about Rs.3.5 crores are received by our students in the academic year 2014-15. .
- The number of students getting financial benefits through **Students Financial Support System** is increasing from year to year**.**
